### About

I have been a software development professional for over 34 years. I have a strong track record of building, launching and supporting enterprise projects. I am a great team player, and I am passionate about turning customer requirements into useful and usable software.

### Work

Jan 2018 – Sep 2020

#### Senior Analyst Programmer

Innovate and manage the delivery of the firm's top performing applications used by retail and commercial business banking customers

#### Highlights

- Developed and coded business rules for enterprise applications used by thousands of banking customers including business rules for mortgage applications
- Developed and coded a new solution for managing the bank's country and corporate bank accounts on behalf of the firm's corporate clients

Feb 2015 – Dec 2017

#### Sr. Analyst Programmer

Innovate and manage the delivery of the credit union's top performing applications used by members and employees

#### Highlights

- Developed an e-commerce site for the credit union's members to access their accounts. This site was highly successful and was awarded an Innovation Award by the Canadian Credit Union Association
- Developed a mobile application for the credit union's members to access their accounts. This application was highly successful and was awarded an Innovation Award by the Canadian Credit Union Association

### Interests

Custom motorcycles

Cooking
